Dear Mr. and Mrs. Buhler:

The United States Environmental Protection Agency, Region 10 (EPA) continues to investigate the releases or threat of releases of hazardous substances associated with the Lower Duwamish Waterway Superfund Site ("LDW Superfund Site"). EPA reviewed your response to the Request for Information dated March 25, 2008. On December 4, 2009, you received a Supplemental Information Request dated November 30, 2009, which required a response by February 4, 2010. To date, EPA has not received a response to the Supplemental Information Request. This letter is an attempt to obtain a response on behalf of Silver Bay Logging, as EPA has additional and clarifying questions that are set forth in the enclosed copy of the Supplemental Information Request. This information will be used for the purposes of determining the need for response, or choosing or taking any response action at the LDW Superfund Site, and to identify potentially responsible parties for performing the cleanup.

Please inform us immediately if our records are incorrect and you requested an extension or provided a response to the previous communications. Please include relevant information as to when and how you responded.

Pursuant to the authority granted EPA by Section 104(e) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. § 9604(e), EPA again requests that you respond to the Supplemental Information Request.

Compliance with this Information Request is required by law. Failure to provide a complete and truthful response to this Supplemental Information Request within sixty (60) days of your receipt of this letter, or to adequately justify such failure to respond, may subject you to an enforcement action pursuant to Section 104(e) of CERCLA. If a response is not received by EPA within 60 days of your receipt of this letter, the statute permits EPA to seek the imposition of penalties of up to thirty-seven thousand five hundred dollars (\$37,500) for each day of non-compliance.

For your convenience, a copy of the original Supplemental Response has been included with this letter.

Please note that responses that are incomplete, ambiguous, or evasive may be treated as non-compliance with this Supplemental Information Request. Provision of false, fictitious, or fraudulent statements or representations may subject you to criminal penalties under 18 U.S.C. § 1001.

EPA may provide this information to its contractors for the purpose of organizing and/or analyzing the information contained in the responses to this Supplemental Information Request. If submitting information and asserting it is entitled to treatment as confidential business information, the Respondent may comment on EPA's intended disclosure within 14 days of receiving this Supplemental Information Request.
8. Personal Privacy Information. Personnel and medical files, and similar files the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from responses, included on separate sheet(s), and marked as "Personal Privacy Information". Note, however, that unless prohibited by law, EPA may disclose this information to the general public without further notice.
9. Objections. The Respondent must provide responsive information notwithstanding objections to certain questions. To object without providing responsive information may subject Respondent to the penalties set out in the cover letter.
